Outpatient Opioid Addiction Treatment with Compassion and Flexibility

At **SaVida Health Biddeford**, we help individuals take control of their lives through **outpatient treatment for opioid addiction**. Our clinic provides a welcoming, non-judgmental environment where patients can access **Medication-Assisted Treatment (MAT)**, counseling, and ongoing recovery support, all under one roof.

Personalized Care That Meets You Where You Are

Recovery isn't one-size-fits-all. That's why we offer a range of FDA-approved treatment options, including **Suboxone, buprenorphine, Sublocade, and Vivitrol**, tailored to your medical history, needs, and personal goals. Our team works closely with you to build a treatment plan that supports long-term success.

What We Offer at SaVida Health Biddeford:

- **Medication-assisted treatment (MAT)** for opioid use disorder
- **On-site counseling** and behavioral health support
- **Case management and recovery coaching**
- **Same-day appointments** when available
- **Telehealth options** for added flexibility

Support navigating insurance, Medicaid, and paperwork

Immediate Access to Treatment

We know that when someone is ready to seek help, timing matters. That's why we offer **same-day scheduling** whenever possible. Our goal is to remove delays, reduce stress, and help you get started on recovery as soon as you're ready.

Help with Insurance and Paperwork

If you're unsure about coverage, our staff can help you verify benefits and walk you through the documentation process. We accept **Medicaid, Medicare, and most private insurance plans**, and we're committed to making care as accessible as possible. All inquiries are handled confidentially and with respect for your privacy.

Outpatient Treatment That Fits Your Life

Our program is **fully outpatient**, meaning you won't need to put your life on pause to get help. Treatment is structured around your schedule, allowing you to continue working, caring for your family, and staying connected to your daily routine while receiving the care you need.

Interested in Suboxone? Let's Talk

Suboxone is one of the most effective tools for treating opioid addiction. It helps manage withdrawal symptoms and reduce cravings, giving patients the stability to focus on recovery. If you're curious about whether Suboxone is right for you, our medical team is here to answer your questions and guide you through the process.

Start Your Recovery Today

You don't have to go through this alone. SaVida Health Biddeford is here to support your recovery with respectful, individualized care every step of the way.

Contact us today to schedule an appointment or speak with a member of our team. We're here when you're ready.
