Outpatient Opioid and Alcohol Addiction Treatment in Berkshire County

SaVida Health North Adams provides **personalized, outpatient treatment** for individuals facing opioid or alcohol addiction. Our care model combines **FDA-approved Medication-Assisted Treatment (MAT)** with counseling, case management, and recovery support, all in a respectful and confidential setting close to home. We're committed to helping you regain stability and move forward with confidence.

A Comprehensive Approach to Treatment

We understand that addiction affects every part of your life. That's why we offer integrated care that addresses both the physical and emotional sides of recovery. Our services include:

- MAT with **Suboxone®, Buprenorphine, or Vivitrol®**

- **Individual and group counseling** for behavioral and emotional support

- **Case management** to help with housing, employment, transportation, and more

- **Recovery assistance services** focused on long-term success

Our licensed team builds treatment plans tailored to your needs, goals, and lifestyle.

Flexible, Local Outpatient Care

Located in **North Adams**, our outpatient center offers treatment that fits into your life, not the other way around. With no overnight stays or travel to distant facilities, you can:

- Receive quality addiction treatment in your own community

- Keep your job, attend school, or care for your family while in recovery

- Access **same-day appointments or telehealth options**, when available

We create a safe, supportive space where healing can happen without disruption.

Respectful and Accessible Recovery Services

Our focus is on providing **nonjudgmental, evidence-based care** that meets people where they are. At SaVida Health North Adams, we treat addiction as a medical condition—and you as a person worthy of compassion, dignity, and support.

We accept **MassHealth (Medicaid), Medicare, and most private insurance plans**. Our team is happy to help you verify coverage and complete any intake paperwork so you can start treatment without delay.
